Re: Small Mine Notice S/001/049

Dear Mr. Munson:

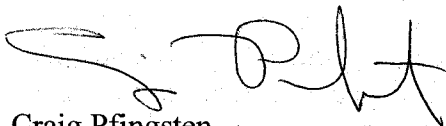

Twin Mountain Rock Company wishes to amend its NOI to conduct Small Mining Operations. Our existing NOI is for picking up surface rock from historic mine dumps. We have picked up most of the rock that is suitable for riprap. This amendment is to allow us to expand the scope of operations to mining a small area within the existing Hidden Treasure Pit. This pit is located on unpatented mining claim Rocky #3, and is in the N½ of the NW¼ of Section 22. Nevada Star Resources is the claim holder and they have received approval from the BLM to expand their Mineral Sale contract to include this area.

The mining will consist of removing a sub-bench of granite overburden on the north wall of the pit, approximately 100 feet below the existing rim of the pit. There will be no change in the existing pit boundary. The granite will be drilled and shot in such a manner to maximize the amount of oversize rock that can be used for riprap. The riprap will be hauled to our quarry site and loaded onto railcars. This mining operation will be confined to a small area within the Hidden Treasure Pit so we will stay within the five-acre limitation of our original NOI.

Please give me a call at 402-342-2052 ext. 2472 if you need any additional information.

Sincerely,

TWIN MOUNTAIN ROCK COMPANY

Craig Pfingsten
